

## Premium collections made easy.

Pay as you go pricing – you only pay when you use the service, giving you total control over your admin and costs.

CPS collections automates your client direct debit payments, handling ad-hoc and repeat collections of any size, volume and frequency. It manages transactions for single or multiple schemes using either our or your BACS account.

CPS collections caters for bulk data loading and our user-friendly screens allow for fast addition and amends of client data. The email notifications, real-time management information and secure logins ensure that you are always in control of your collections.

Provided by Close Payment Services, a group with 28 years experience in managing customer payments, this collections facility has been developed with flexibility in mind. As a result, we can also manage refunds, client letters and arrears for you.

- **Improved credit control** – our fully automated service reduces admin costs and gives your staff more time to focus on key business issues
- **Enhanced cash flow** – direct debit collections provide payment certainty and greater control of client money
- **System security** – multiple authority levels, encoded data processes and a state-of-the-art disaster recovery system provide maximum protection for your client payments
- **Easy maintenance** – our user-friendly web interface allows real-time amendments of client details in minutes
- **Full compliance** – this product meets your FSA client money rules
- **Improved customer services** – give your clients an easier way to pay now and for renewals
- **Better business planning** – our up-to-date management information is accessible online at any time
- **Easy set up** – using our BACS originator ID, your account can be set up quickly and effortlessly

To find out how you can benefit from our direct debit system or if you would like to see a demo of CPS collections, email us on [moreinfo@closeps.com](mailto:moreinfo@closeps.com) or call us now on **020 8339 6247**.
